

Master Bedroom

Note: Cable provider and equipment changes often occur.

To watch cable TV on the Hisense smart TV

Using the Spectrum remote:

1. Be sure the TV is off (red light, lower left is on) and the cable box is off (no lights are on)
2. Select the <All> button to power on both the TV and the cable box
3. If the TV was left with Netflix selected, or if there is no signal, recover the cable menu by:
 - Push <Input> repeatedly until “Cable TV” is highlighted
 - Wait for the cable TV to play
4. While in cable TV, use the <Guide> button to see a list of channel
5. Using the <up> and <down> arrows, navigate to your desired channel and press “OK”
6. To turn off the cable and smart TV, select <All> from the Spectrum remote

Things to note:

- Check cable connections if you are still having trouble.
- “Pay-Per-View” selections must be billed to your own account.

Streaming Video

1. Use the Hisense remote
 - For Netflix
 1. Select the <NETFLIX> button, bottom left
 2. Use the arrows to navigate and select your desired content
 3. To exit, press the <EXIT> button, then select “Yes” from the screen
 4. **Please DO NOT use your own account, or LOGOFF ours. It creates a security risk for you, and a problem for us, reconnecting to our account.**
 - For other streaming apps:
 1. Select the <△> (Home button).
 2. Navigate to “Apps”
 3. Select from among the many streaming services offered.

Bonus Viewing:

We invite you to watch a documentary of the history of the area, “Harnessing Nature – Building the Great Sacandaga Lake”. The full video is about 90 minutes. To access:

1. Press <△> (Home button) on the Hisense remote
2. Scroll to “Media”
3. Press <OK>
4. (Select “USB 0”)
5. Press <OK>
6. (Select “Harnessing_Nature.mpg”)
7. Press <OK>

These notes are as current as possible – we do have guests occasionally “creatively” modify these connections. *We ask that you refrain from doing so.*
